Who can see your friends list ?   Close

Remember that your friends control who can see
their friendships on their own timelines. If people
can see your friendship on another timeline,
they'll be able to see it in News Feed, search
and other places on Facebook. If you set this to
Only me, Only you will be able to see yourfull
friends list on your timeline. Other people will
onyl see mutual friends.

🔒 Only me ▼
